B. Sc. Medical Sociology (Batch: 2018-2023)

The MMM College demonstrated a remarkable ability to understand and delivered their best performances. This achievement can be attributed to the excellent theoretical and practical knowledge provided by the faculty, which fostered a deep understanding of socio-medical concepts. The internship training was well-structured and offered valuable hands-on experience, complementing our classroom learning. Overall, the college effectively prepared my batch mates and me for professional roles in medical sociology.
