## “NACL 2019”

Dear Sir/Madam,

MMM College of Health Sciences warmly welcomes all the participants researchers, faculty and delegates across the country to attend our National conference NACL 2019, during January 22nd & 23rd 2019 at MMM, Chennai. The city of Chennai is set to witness an extraordinary event which will be a learning experience for the students as well as professionals. NACL 2019 is organized around the theme "Systematic and qualitative approaches in clinical science" that will have the gathering of experts from Health care industry. The conference comprises of brief keynote presentation, oral talks, poster presentation and exhibition. The best papers will be included in the conference souvenir.

### About the College:

Since 1992, MMM College of Health Sciences has earned statewide acclaim as a premier educational institute for Allied Health Education. With a state-of-the-art facility, conveniently located in the heart of city, network of accredited programs offer a broad array of choices for a lucrative and rewarding career in today's highly competitive healthcare arena. Students are able to obtain the necessary didactic (in-class) instruction as well as hands-on experience at our numerous clinical sites.

### Aims and objectives of the conference:

The main objective of this conference is the search for better quality in laboratory medicine for all those who are associated with it. Hence, this conference aims at the gathering of Laboratory Analysts, Scientists, Faculties, Medical Caretakers, Social Specialists and Trainers with Long Professional Experience that will help in providing improved, better quality treatment to ailing patients. Another objective of this conference is to share the valuable research findings that will attract young minds towards professional and research career goals.

### Conference Tracks Include:

- Laboratory biosafety and ethics
- Pre analytical errors
- Laboratory Quality control concepts
- Biomarkers
- Cancer Biology
- Stem cell Biology
- Diagnostic Microbiology
- Epidemiology of infectious Diseases
- Genomics
- Cytogenetics
